NEW COMPENSATION FORMS

Made in Accordance With Amended Act-Special Blanks for Employers of Less Than Five-Matters of Interest to Insurers.

ment between the parties called for the filing with the compensation commissioner of two forms, one being form No. 28, a statement of fact, and the other being form No. 11, an agreement proper. Form No. 28 was for the information of the commissioner in checking the accuracy of the agreement in its compliance with the terms of the act. It was not filed with the clark of the superior court but reclerk of the superior court, but re-mained in the office of the commis-sioner for his information and protec-

from No. 11 was the legal instru-ment by virtue of which the employe was enabled to enforce his rights in court. The two foregoing forms have been combined in the new form num-bered as indicated above, 11A. While this will impose more work upon the offices of the various commissioners in making the copies, it will be a great convenience and saving of time to insurance adjusters and employers carrying their own risk. A supply of these forms is available in the offices of the several compensation commissioners. Form No. 33 is rendered necessary

by the amendment of the act appearing in section 20. Hitherto the com ing in section zv. Hitherto the com-missioners have had no means of knowing just how much has been paid to each employe under the agreement or award which has been approved or rendered by the commissioner. A copy of the agreement or award was sent to the employe and the legislature which passed the original act evidently assumed that the employe would enforce his rights when once he had the instrument in his possession.

The amended act, however, compels the employer within one week after

the employer within one week after the last payment has been made to furnish to the commissioner a report giving such statistical information as the commissioner may call for. Form No. 33 is now available and is to be rendered in the case of all injuries oc curring after 11 o'clock on May 20 1915, the date and hour at which Governor Holcomb signed the amended

For the "Less Than Fives." Forms Nos. 31 and 32 are of inter est to employers of less than five per-sons. It is anticipated that a very con-siderable number of such employers will prafer to continue under workmen's compensation act, and the amended act makes provision therefor. Form No. 31 is a combined notice of ceptance and certificate of insurance to be served upon the commissioner. The clerical work in all such cases will probably be done by the insurance company or its agent. Form No. 32 is a similar combination of acceptance of the act and certificate of insurance to

Notice of Injury. Form No. 29 is a form for notice of injury to be served upon the employer by the employe. The amended act provides that whenever the employe is injured by the life of the control of the njured he shall give notice to his emover of the fact, and if he fails so to do, the compensation may be reduced by the amount in which the commis sioner shall find the employer has been prejudiced by lack of this infor-nation. While it will not be necessary for the employe to use form No 29 in all cases of injury, a verbal no-tice probably being sufficient in most cases, the commissioners have deemed it wise to prepare a formal instrument

DISAPPROVES HOSPITAL CHARGE FOR OPERATION.

In Compensation Case Where Patients Was in General Ward,

George E. Beers. compensation nmissioner for the third district, o acted for Commissioner Donohue of this district at the hearings une 16th has given his decisions in hese, making a ruling that is of interest because he rules against a hos pital charge of \$100 for an operation which he claims is only made because it was a workmen's compensain which the employer was

Solely upon the ground that orkmen's compensation act does not ontemplate that the employer shall pay more than the general public pays for the the sort of service rendered. Acting Commissioner Beers disapproves the bill of \$100 from Dr. Daniel Sullivan of New London for an operation for hernia upon William Maone of 58 Jefferson avenue, New London, who was injured on February 4, 1914, while in the employ of H. R.

Douglass Co., Inc.

The commissioner states that there can be no criticish of the faithfulness and intelligence of the physician in this case, or of the reasonablenes of existing circumstances he cannot approve the bill.

In his memorandum with the decision, Commissioner Beers says that the only question in this case is as on a patient of the standard of living of the claimant who was occupying a private room in the Lawrence hospi-tal at New London and had the emhimself been paying the bills, it Coffey, would have been a proper amount. The evidence, however, established the additional fact that it is usual for workmen of the standard of living of the claimant in this case, when bills are being paid by the injured person, to go into the public ward where the payments made by them—which in no Edward Wells and School of Czikowsky.

o cases other than cases which arise Shers where there is a temporary lack of ber commodation for private room tardy cases, is there a higher charge made with the sole exception of compensa-

payment for operations.

There is no good reason why employers should be objects of charity and there is likewise no good reason why the general public should be the recipient of indiscriminate charity. As a matter of fact the hospital service at less than cost is thrown open to the public generally in much the same way that the educational advantages of schools and colleges are thrown open to the public at less than

We are not concerned herewith what

Of the supply of new forms that has been arranged for the compensation commission, the most important are forms No. 11A and No. 33. Hitherto every case settled by voluntary agreement between the parties called for the filing with the compensation commissioner of two forms, one being form No. 28 was for the ingreener. Form No. 28 was for the ingreener form No. 11, an agreement proper. Form No. 28 was for the ingreener in checking the accuracy of the agreement in its compliance with the terms of the act. It was not filed with the clerk of the superior court, but represal in the same community for prevail in the same community for similar treatmnt of injured persons of a like standard of living when such treatment is paid for by the injured

persons."

In the case of Edward W. O'Connor of 28 Summer street, New London, claimant, against Fred J. West, of New London, respondent, the hearing was held upon the question of approval of the bill of Dr. H. M. Lee of New London for \$100, who performed an operation for hernia. This was made necessary by the injury sustained by Mr. O'Connor while in the employ of Mr. West on December 27, 1914.

To Be Made By W. J. Warne State Dairy Department.

Dr. Lee did not appear at the hear-ing and stated that he did not desire to appear or be heard. The acting commissioner finds that no evidence was presented and no facts appeared to whether this fee was proper or im-proper and he rules that the fee be

proper and he rules that the fee be not approved.

The same decision is reached in the case of a bill for \$110 presented by Dr. Lee for services in performing an operation for hernia upon George Crane of No. 26 Greene street, New London, who was injured while in the course of his employment on February 6, 1915 by the Tracy company of New London. In this case Dr. Lee also did not appear at the hearing, and in both cases the doctor's bill was conboth cases the doctor's bill was con-tested by the Travelers Insurance Co., of Hartford, which was the insurer of

Settees For Trolley Patrons. We are not concerned herewith what would have been the result had the failured employe, by his own insistence been placed in a private room; nor the question of how the law would have regarded the status of a special ward provided for patients who could pay in point of fact, and for compensation cases, in which ward a charge was made for operations.

As a matter of fact the injured person was not put into a private room or into any such supposed ward and we have the bald proposition before us of whether in a room where the gen-
